THE Audit Bureau of Circulations solves the riddle of circulation for its members.

It places in their hands unprejudiced information on the various publications in which their advertising appropriations are being expended.

It tells how much there is, where it is and the kind it is.

"A. B. C. Service" is just as essential to the advertiser and advertising agent as Dun or Bradstreet's are to the credit man. Why not back your judgment with solid facts?

The Audit Bureau of Circulations is a co-operative organization—not for profit—its membership includes over one thousand Advertisers, Advertising Agents and Publishers, in the United States and Canada, who believe in standardized circulation information. Complete information regarding the service and membership may be obtained by addressing — Russell R. Whitman, Managing Director.
